

NETBIOME-CSA

STRENGTHENING EUROPEAN RESEARCH COOPERATION FOR SMART
AND SUSTAINABLE MANAGEMENT OF TROPICAL AND SUBTROPICAL BIODIVERSITY
IN OUTERMOST REGIONS AND OVERSEAS COUNTRIES AND TERRITORIES

Planning the future of the NetBiome partnership

José Azevedo

Boosting Biodiversity Research Cooperation

A NetBiome Roadmap for European (sub)Tropical Overseas

6 April 2016, European Parliament, Brussels

This project has received funding from the European Union's Seventh Programme for research, technological development and demonstration under **Grant Agreement Number: 603710**. This presentation only reflects the views of the author's(s), and the European Union cannot be held responsible for any use which may be made of the information contained therein.

Support biodiversity research in and for the Overseas

- Promoting sustainable development
- Strengthening the human capital
- Building through a participatory approach

Within BiodivERsA3 (ERA-NET)

- Partners: Azores, Canary Islands, Guadeloupe, New Caledonia, Reunion, French Guiana
 - Enlargement to the other ORs and OCTs (OCTA, Martinique)
- Devoted Workpackage: «*Integrating research programmes and addressing issues with and within Overseas territories/Outermost Regions*» (Coordination: Région Guadeloupe)

Within BiodivERsA3 (ERA-NET)

- Participation in the current BiodivERsA3 co-funded call
- A second call dedicated to (sub)tropical biodiversity of Overseas regions, countries and territories?
 - Use of research priorities identified in NetBiome (ERA-Net, CSA) and BiodivERsA3
 - All partners from NetBiome invited to join in the financing and beyond (third countries, SME ?)

Raise a common Overseas voice on shared biodiversity challenges

- Bridging the gap between science and decision-making
- Encouraging multi-stakeholder dialogue
- Improving European policies and instruments

ORs and OCTs Biodiversity Forum

Stakeholders will keep using it to

- Debate ideas
- Disseminate events and collaboration opportunities
- Find partners for projects

Reinforce Europe's cooperation in key geographic regions

- Connecting with neighbouring countries for joint research activities
- Catalyzing synergies with other regional and international existing initiatives
