

# EU activities on wildlife conservation in Africa

Philippe Mayaux  
Head of sector Biodiversity and Forests  
European Commission

# EU support to African National Parks

# The study: Larger than elephants

- Identify at the scale of Sub-Saharan Africa the principal **threats** to wildlife (including animals and plants) and the most appropriate **responses** for the next 10 years.
- Not limited to wildlife trafficking, but focused on **conservation and sustainable management** of wildlife and its linkage with development.
- Important for the aid programming
- Not limited to EU activities but can be a frame for many sources of funding

## Site-level

**Conservation and sustainable development of 77 Key landscapes for conservation**

## National

**Institutional strengthening and capacity-building**

## International

**Stopping the illegal killing, trafficking and demand of wildlife products**

**Information systems for better decision-making**

# Planned activities at local level

- Concentrated in 77 **Key Landscapes for Conservation** covering  $\pm$  350 N.P.
- Management of **protected areas** (anti-poaching, ecological monitoring, tourism, finance...)
- **Livelihood improvement** around KLCs by development projects (agriculture, energy, etc.) and community-based resource management
- **Sustainable management** of biological resources (bushmeat, fuelwood, etc.)
