Biobased art

Making bioplastic from potatoes

LANDART DIESEN

LET THE STARS SHINE

Engaging citizens in the EU

Lambert van Nistelrooij

Europees Parlementslid, EVP Fractie, CDA
Member of the European Parliament, EPP Group, CDA

Stars in Europa

Brussels's communication on Europe is outdated.

Year in, year out thousands of projects are successfully completed with the help of EU funds.

Why don't you hear anything about this afterwards?

Due to this lack of visibility we have come to perceive the added value and the resulting wealth as self-evident.

Are you involved in a programma or project which co-financed by the EU?

Do you want to make the results of the Structural and Investment funds visible for your surroundings?

The first call for proposal at the European Commission is opened till the 16th of October. We will do it differently now: "Let the Stars Shine".

More information?
